EUROPEAN CYBERSECURITY SKILLS FRAMEWORK

ROLES ACCORDING TO ENISA

Profile Title	Deliverable	Description
Chief Information Security Officer (CISO)	Cybersecurity Strategy	Cybersecurity Strategy is a plan of actions designed to improve the security and resilience of an organisation's infrastructures and services.
Chief Information Security Officer (CISO)	Cybersecurity Policy	A policy listing rules to ensure the organisation's cybersecurity.
Cyber Incident Responder	Incident Response Plan	A set of documented procedures detailing the steps that should be taken in each phase of an incident response (Preparation, Detection and Analysis, Containment, Eradication and Recovery, Post-Incident Activity).
Cyber Incident Responder	Cyber Incident Report	A report providing details on one or more cyber incidents.
Cyber Legal, Policy & Compliance Officer	Compliance Manual	A manual providing a thorough understanding of the regulatory compliance obligations of an organisation. It may include internal policies or procedures to ensure compliance with laws, regulations and/or standards.
Cyber Legal, Policy & Compliance Officer	Compliance Report	A report presenting the current state of the compliance posture of an organisation.
Cyber Threat Intelligence Specialist	Cyber Threat Intelligence Manual (or Handbook)	A manual presenting tools and/or methodologies for cyber threat intelligence gathering and/or sharing.
Cyber Threat Intelligence Specialist	Cyber Threat Report	A report identifying prime threats, major trends observed with respect to threats, threat actors and/or attack techniques. The report may also include relevant mitigation measures.
Cybersecurity Architect	Cybersecurity Architecture Diagram	A visual representation of an organisation's cybersecurity system architecture used to protect assets against cyber-attacks.
Cybersecurity Architect	Cybersecurity Requirements Report	A report listing a set of requirements needed for ensuring the cybersecurity of a system.
Cybersecurity Auditor	Cybersecurity Audit Plan	A plan that presents the overall strategy and the procedures an auditor will follow to conduct a cybersecurity audit.
Cybersecurity Auditor	Cybersecurity Audit Report	A report providing a thorough understanding of the level of security of a system, assessing its cybersecurity strengths and weaknesses. It may also provide remediation actions to improve the overall cybersecurity of the system.
Cybersecurity Educator	Cybersecurity Awareness Program	A program of activities to raise awareness on cybersecurity-related issues (e.g. lectures on attacks

Security Certification
Roadmap - Paul Jeremy
Media

The screenshot shows the Skillsbeam website interface. At the top, there is a navigation bar with links: HOME, ENTERPRISES, DIGITAL SKILLS ASSESSMENT, CONTACT US, and LOGIN. Below the navigation bar, the title "DIGITAL PROFILES SKILLS ASSESSMENT" is displayed, followed by the sub-instruction "Please select the job role that you wish to assess." The main content area is organized into several colored boxes representing different job categories:

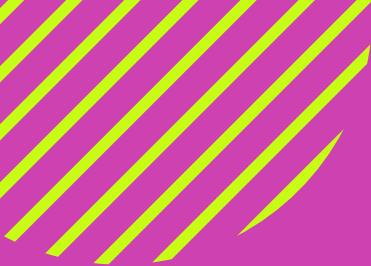

- Business** (Blue box): Business Information Manager, Chief Information Officer, Data Scientist, Operations Manager.
- Design** (Blue box): Business Analyst, Data Specialist, Enterprise Architect, Solution Designer, Systems Analyst, Systems Architect.
- Development** (Blue box): Developer, Digital Media Specialist, Test Specialist.
- Support** (Blue box): Account Manager, Digital Consultant, Digital Educator, Information Security Specialist.
- Service & Operation** (Blue box): Data Administrator, Network Specialist, Service Support, Systems Administrator, Technical Specialist.
- Technical** (Blue box): Information Security Manager, Project Manager, Quality Assurance Manager, Service Manager.
- Security** (Orange box): Chief Information Security Officer, Operations Coordinator, Cyber Advisor, Penetration Tester, Cyber Threat Analyst, Security Architect, Incident Responder, Vulnerability Assessor, Intrusion Analyst, Vulnerability Researcher, Malware Analyst.

AGENDA

- Ilse Parra - European Cybersecurity Skills Framework 10:00-10:10
- Video
- Julie Van Loef 10:10-10:25
- Emily Van Putten - Inspark 10:25- 10:40
- Janneke Hoeben - Bechtle 10:40 - 10:55
- Break 10:55 - 11:05
- Sarah Vetter - Microsoft 11:05 - 11:15
- Annemieke Matyas - CTAC 11:15 - 11:30
- Linda Durand - Microsoft 11:30-11:45
- Ella Gud - QS solutions 11:45-12:00

WHAT CAN YOU DO TODAY

- Open your mind
- Try new things
- There are no mistakes
- Use your skills & experience
- Keep learning
- Believe in yourself
- Go out there

What does a BDM do?

Working at a Distributor

Good learning opportunities

At TD Synnex: 20 people in the Microsoft BU

Benefits of working at TD Synnex!

ANELA JAGANJAC

- Data Security Technology Specialist @ Microsoft
- Customer facing role
- Technical win - not commercial win
- Whats the ROI
- Scale through partners
- POC
- Build strategy
- Compete
- Deep technical knowledge & industry focus
- About me:
- From Bosnia
- Background in Psychology
- Outdoorsy, plants, watersports, motor bike
- Fun, fun, fun!
- Baking, Food & drinks
- Boardgames & reading
- Traveling
- Dancing
- I can't sit still

MY LESSONS LEARNED

- Enjoy what I do
- Operate from my strengths
- Do something meaningful
- Growth and development
- Invest in 1 new skill every year

JULIA MARIJNEN

PROJECTMANAGER

Study Background

- BSc Communication Science (Vrije Universiteit)
- MSc Culture, Organization & Management (Vrije Universiteit)
- MSc Work & Organizational Psychology (Vrije Universiteit)

Work History

- Data Protection Manager & Compliance Coordinator Benelux @Beiersdorf
- Advisor Work & Health @De Arbodienst
- Projectmanager @Cloud Life

WHAT DOES A PROJECTMANAGER IN CYBERSECURITY DO?

Project is done properly

Stakeholders are happy

Deliverables are delivered

Everybody on the same page

Planning is met

Setbacks are handled

Risks are minimized

Project stays within the budget

Everything you have learned in your past, you can use in your new job in cybersecurity

WHICH COMPETENCES HELP TO BE A PROJECTMANAGER?

Planning skills

Communication skills

(Enough) interest in cybersecurity

Flexible

Decisive

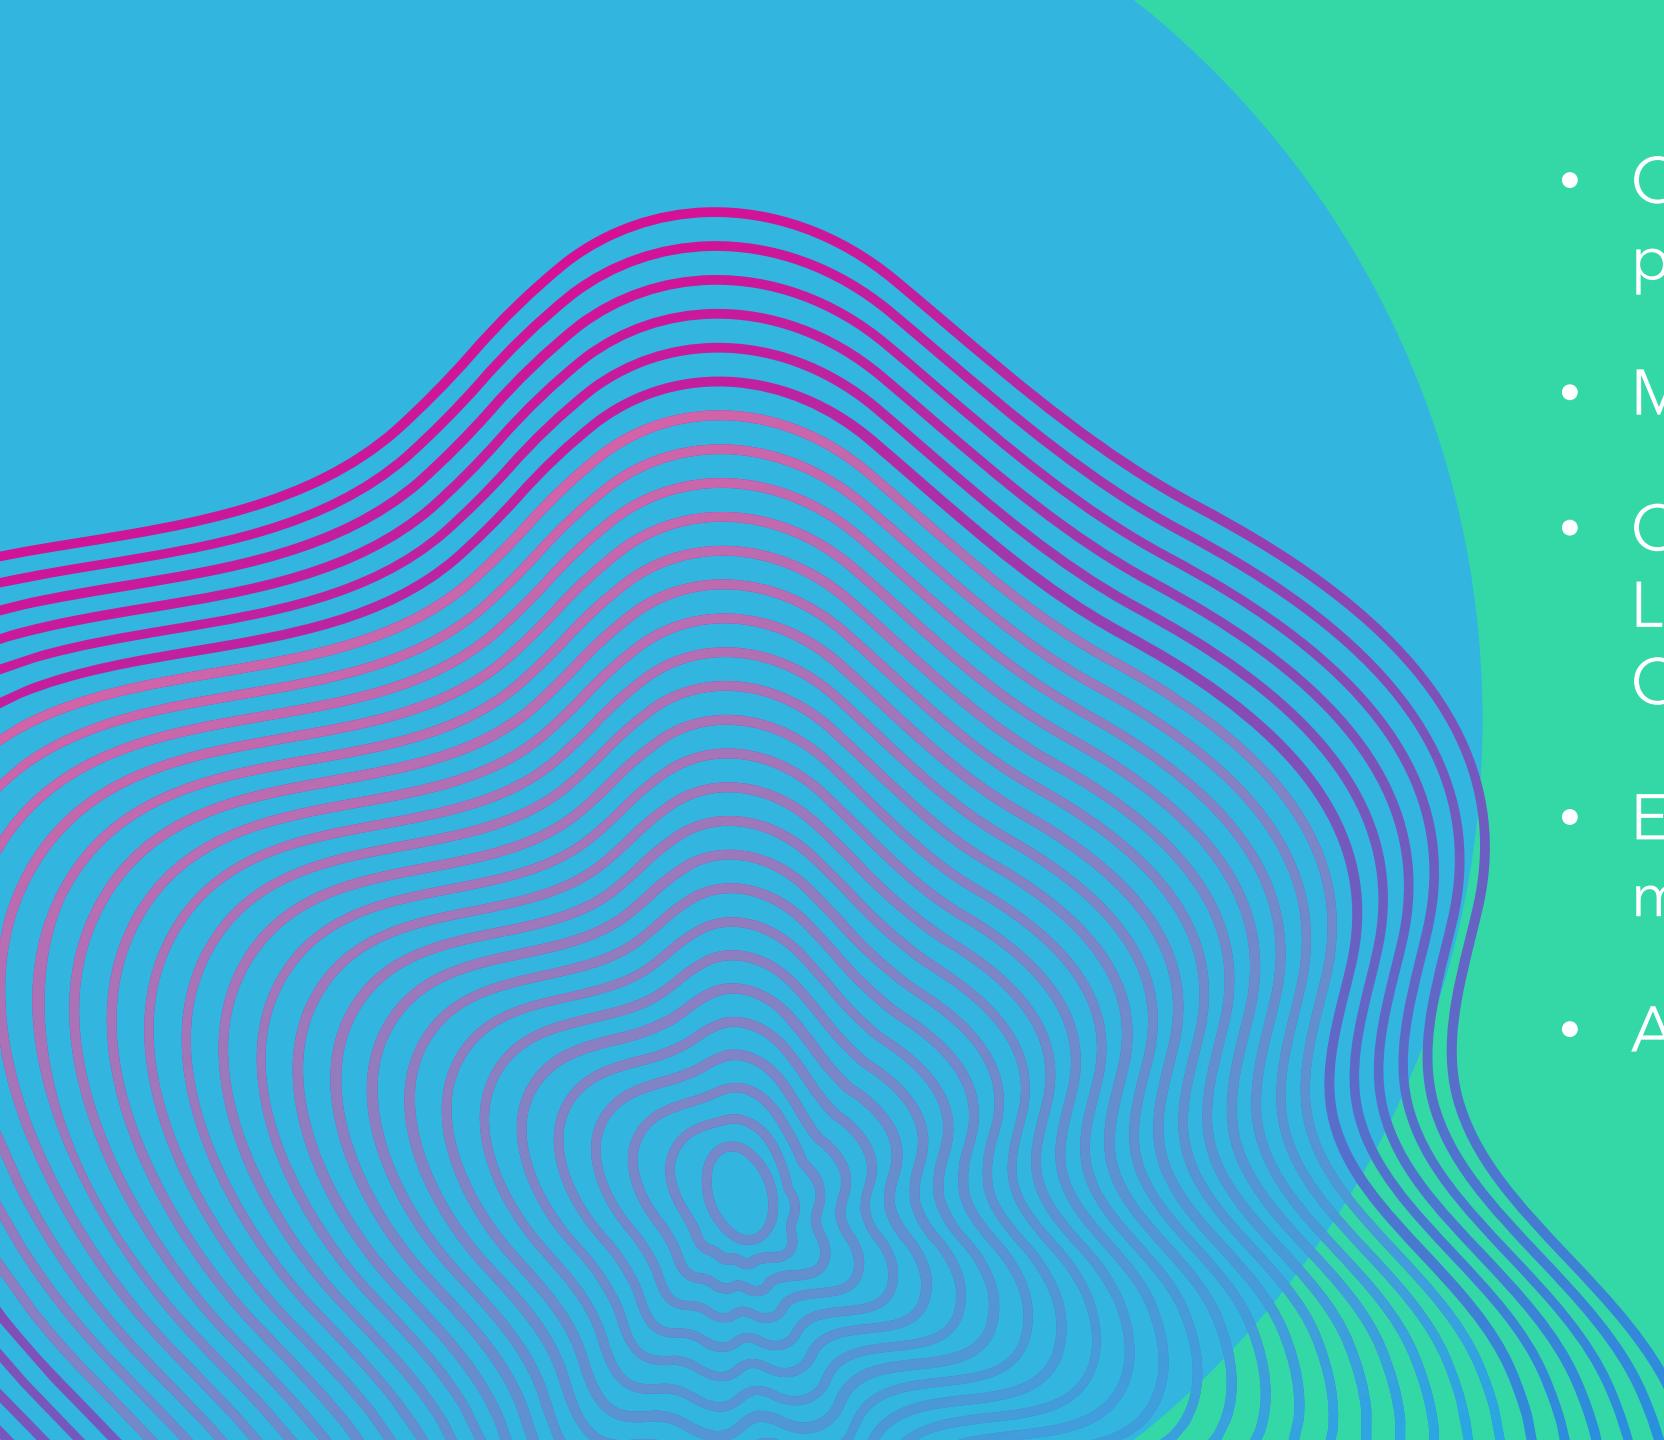

Willing to learn

Don't just look at what you know content-wise about cybersecurity, look at your previous experiences and focus on that!
